AMBIA-LINE – the inner dividing system

The inner dividing system for LEGRABOX ensures perfect organisation in all living areas. The universally compatible AMBIA-LINE frames are easy to use and have a shape, colour and material designed to match LEGRABOX.

AMBIA-LINE bottle set

With the addition of adapters that are clipped on tool-free, the tried-and-tested drawer frame can be transformed into a functional bottle solution. Three additional flexible cross dividers round off the set to provide a secure place to store your bottles, no matter what their size. The optional base fixing bracket allows for free positioning within the pull-out, and if you've got enough space, you could even stand cutting boards up beside the bottle solution.

The AMBIA-LINE bottle set is available in two different widths.
